

MARCH 2

(pages 91-95)

I am the Lord. I am Yahweh.

Oh Pharaoh, don't you get it, God is in control and we are to honor Him and follow His commandments. Ha, our God has gently reminded us of the same message daily. But God's plans in today's reading are at first a 'distraction' to Pharaoh, an inconvenience. God has a way of getting our attention though. And the purpose is to glorify Him, to know that He is Lord.

Have we not all felt at some time or another that our plans feel the best...?! Doing God's plan can be difficult and/or probably something that does not come easily (at least not for me..) Trying to just keep the day moving in a direction that has meaning, ah, but with a little discomfort as possible. Moses was told by God what to say to the frustrated and overworked Israelites, that they would soon have something they had wanted (and were promised), their own land. And their reply to Moses was full of anger and exasperation. Have we not all reacted the same? Stubborn? Why not faster? Less complicated!

I am the Lord. God provides the means for delivering His message, He always does (Aaron even helped Moses!). Have you experienced the nudge from God on something? Has He been 'heard' through someone. Or has He made His power known through a clear sign? Does your heart want to be moved, yet something is holding you back? God will surely get your attention for His path....and His plan.

Hopefully it will not take frogs, gnats, flies..... More on that tomorrow.
